

Puffu McPuffer

Presented By Kyle Hoey, Ewan Clark,

Laura Roberts, Dylan Yuen & Jack Logan

The Trailer

♪ - Igaku (原口沙輔)

The Brief

- HTML/WebGL Based
- Single Player
- 1-3 Minutes Per section
- Target Audience: 4-7 years

How we match the brief

Feedback from playtest

The Main feedback we got from the playtests were:

- Movement was weighty but too clunky
- Procedural hazards weren't fun/unfair
- At the start of gameplay, it was unclear what to do.

Narrative

- Follows Puffy as he journeys through the Scottish Canals to deliver his cargo, meeting the Falkirk Wheel, Caledonian Canal and The Union Canal on his Journey. Will he be able to navigate through and set aside his differences, or will he have to brave the stormy waters north of Scotland.

Uniaue Sellina Points

- Casual, Arcady experience that is easy to pick up and play.
- Teaching the player about Canals, their Locks and the local area while they play.
- A variety of engaging minigames that offer different challenges, keeping the gameplay fresh and fun as players jump from one to another.

Time Remaining: 21

2/5

Minimum Viable Product

Lock Balance:

- Patterned Hazards ✓
- Water rises with cargo collected ✓
- Durability instead of instant game over ✓
- Moving onto next lock upon completion ✗

Pipe Puzzle:

- Multiple alternating puzzle layouts ✓
- Multiple Pipe shapes ✓
- Different Pipe types:
 - Broken ✓
 - Leaky ✗
 - Immovable ✓

Canal Cruiser:

- Patterned Hazards ✓
- Cargo trails ✓
- Hold onto cargo until time runs out ✓
- Collectables that help or hinder player (blocks one hit, speeds up/slows player) ✗

Aims for full production

Levels and Tutorials

- Combine all minigames into 1 level
- 4 Levels featuring all minigames
- Tutorials showing short clips of gameplay

Narrative

- Flesh out story
- Comics to illustrate gaps between segments
- Dialogue during comics to give more character to the locks and puffy

Art and SFX/VFX

- Adding Music
- More VFX/SFX to bring puffy and objects to life
- Backgrounds for each minigame
- Assets for each minigame

Additional content

- Leaderboards for each minigame/level

Task	Time Scale	Notes
Needed to be Viable		
Additional Mechanics for new levels	2~3 Weeks	• Lock Balance – When beating minigame puffy moves left and camera follows into new lock, allows us to extend game further. • Pipe – Leaky Pipes (require clicks every few seconds) & Locked Pipes (used to give an idea of layout, immovable) • Canal Cruiser – Buffs/Debuffs (when collected effect player in different ways. Shield gives player one free hit without losing cargo. Speedup/Slowdown increases or decreased player movement sleep when picked up making it easier or harder to avoid objects. • Playtesting/Balancing
Full Production		
Level System	2~3 Week	• Combine all minigames into a single level • 4 Levels featuring all minigames • Adjusting values and creating new layouts for the new levels • Playtesting/Balancing
QOL Updates	2 Weeks	• Fix a few audio issues present in the Pipe puzzle and canal cruiser (lose sound playing when winning, and pipe sounds overlaying) • Ensure that both the level system and the additional mechanics are solidified and work properly • Player stun on lock balance is shortened and more visible to player • Smooth out pipe movement instead of instantly rotating
Sound and visual effects	1 week	• Implement music for soundtrack sourced by designer • Using Shader graphs and other particle effects to create better visual feedback on Puffy and objects (Adding trails behind objects, have puffy looks stressed or strained when hurt when carry a lot of cargo or damaged.)
Better Tutorials	1 Week	• Short Clip shown before first time for minigame, showing mechanics and brief explanation of controls
Art Assets	4 Weeks	• Backgrounds for each minigame – Pipe, Lock Balance and Canal Cruiser • Assets for minigames (cargo, shopping trolley, glass bottle, Wave, Tree log) • New assets based on additional mechanics (Buffs/Debuffs, Leaky and Locked Pipes)
Narrative	2 Weeks	• Drawing the comics that fill in the gaps between the minigames inside the levels • Writing dialogue • Voice lines
Leaderboard	1 Week	• Keep track of player progress for each minigame, showing cargo collected, pipes solved and how long player lasted.

Thank You
